

To all Lions, Leos and Lioness – MD201

As we are all aware, the current bushfire crisis has impacted so many areas around of our country. The support of Clubs, individuals and organisations has been incredible which has enabled Lions to be at the forefront in supporting those impacted.

In Australia, we are lucky to have the support of our two Lions Foundations – the Australian Lions Foundation and our Lions Clubs International Foundation who have already provided significant funding support to help the victims.

Both the Australian Lions Foundation and Lions Clubs International Foundation are working together to ensure that support is provided quickly and direct to all areas. ALF and LCIF have already provided significant funding to our Districts and will continue that with increasing support.

We ask that all Clubs continue to support our Foundations instead of general community funds as we know and control where all the support goes. Clubs and the public know the integrity of how Lions deal with donations as all funds collected go where they are intended.

Both Foundations are asking for your continued support which will enable Lions in the affected areas to help those who have lost their homes and livelihoods. You can make a difference!

Please give your consideration and support to both our own Foundations.

Donations can be received as follows:

AUSTRALIAN LIONS FOUNDATION LTD
